

Withheld Results

Whenever the Examination Board has reason to believe that inappropriate means have been used by an individual or a group, no result shall be published for the examination paper involved. Withholding of a result for whatever reason leads to absence of the overall grade and accordingly there is no SSC award.

A school candidate with a result withheld may appeal to the Board for reconsideration but only in writing through the school principal. Unless the Board decrees otherwise, candidates can opt to overcome a withheld result by participating at the next examination upon registration and payment of the appropriate fee.
