## Programme Highlights

The course will provide you with an opportunity to:

- develop deep appreciation of the theoretical and philosophical issues underpinning different methods of data collection;
- become familiar with a wide range of research techniques and methods of data collection and analysis;
- develop an understanding of ways of constructing, analysing and reporting qualitative data;
- engage with different ways of presenting analysis of qualitative data;
- understand ethical issues at all stages of the research process; and
- network with a range of fellow learners in the field, including AKU-IED's PhD students as classroom peers.
