January 02 – April 24, 2018 | Every Tuesday | 9:00 am -12:30 pm | AKU-IED

The programme is open to faculty and graduate and post-graduate students interested in conducting research.

Programme Highlights

The course will provide you with an opportunity to:

- understand the broad notions and nature of research in education;
- comprehend theoretical issues underpinning the philosophy of research in education;
- grasp theoretical issues underpinning the adoption of a research design;
- apply a range of qualitative research approaches, methods and tools to address problems in the area of education;
- develop an understanding of ways of constructing, analyzing and reporting qualitative data;
- engage with different ways of presenting analysis of qualitative data;
- understand ethical issues at all stages of the research process; and
- network with a range of fellow learners in the field, including AKU-IED's MED students as classroom peers.
