'Innovation Day' was organized with CCIT- a one-day mini symposium and workshops on April 20, 2017, the first step towards generating an ecosystem conducive to medically-relevant entrepreneurship and innovation. This activity could be a forerunner to a more comprehensive course in healthcare entrepreneurship and medical innovation. It was a fast-paced, streamlined, yet dynamic introduction to creativity, innovation and entrepreneurship in biomedicine and healthcare.

Sharing Experience: Mr. Saleem Pirani and Mr. Ali Baig, engineers from CIME, recently receives training in Germany:

“It was a unique opportunity for us, to get trained on high fidelity manikin based simulators, Laerdal SIMMAN 3G and CAE Human Patient simulator. Training was focused on the technical aspect of the system, troubleshooting techniques, and basic understanding of scenario making.

The experience and knowledge from this training, will not only enhance our capabilities in maintaining systems but will also enable us to support educators in developing practical and more realistic scenarios.”

*Saleem Pirani
Ali Baig*

On April 27th The Network of Teaching and Learning conducted a workshop on **Higher Education Academy (HEA) Accreditation:** This begins the Journey towards the AKU Teachers Academy.

Deans and directors from Department for Educational Development (DED), Institute for Educational Development (IED), Centre of Innovation in Medical Education (CIME) and School of Nursing and Midwifery (SONAM) in Pakistan and HEA applicants from AKU attended the workshop. AKU is now a strategic partner of UK’s Higher Education Academy and is in the process of developing a comprehensive professional education scheme for the Professional Development of faculty at AKU.

On April 23rd **CME Symposium on Ophthalmology:** A full day session with a series of lectures was followed by two workshops on:

1. Creation of MicroKeratome flap
2. Using Moria Vacuum Trephine & Punch for Cornea

Very successful and well attended.

Simulated Rapid Response Team (RRT) Training

A simulation based workshop on Rapid Response Team (RRT) was held at CIME from April 3 to 5, 2017. A total of 120 interns participated. This was a massive task well-coordinated by the team.

The objective was to prepare nursing interns to contribute to the work of the RRT team in caring for clinically deteriorating patients.

It was very well evaluated.

Upcoming Events at CIME

Organized by Department of Surgery:

Spinal Trauma workshop | May 14, 2017 |

2nd AKU Orthopedic review course | May 8 – 13, 2017 |

Obstetrics and Gynecology: Basic Hysteroscopy Course for Postgraduate Students

A three-hour course on basic hysteroscopic skills for postgraduate Obstetrics and Gynecology residents was conducted on April 14, 2017. It included a pretest, and an introductory interactive presentation, followed by five hands on stations and a debriefing session at the end. This was a very successful event.
