

5th AKU Annual Surgical Conference

Trauma

STRIVING FOR CHANGE

14–16 February 2020 | Aga Khan University

Pre-Conference Workshop on **Setting up Trauma Registries - A practical step-by-step guide**

February 14, 2020 | 9:00am – 5:00pm

Venue: Aga Khan University, Karachi

"The trauma registry is an essential component of any trauma program... The trauma registry should function to drive an efficient and effective performance improvement program for the care of the injured patient." *American College of Surgeons, Resources for Optimal Care of the Injured Patient*

Learning Objectives

- Identify the fundamental elements of a trauma registry,
- Identify the fundamental elements of standard trauma dataset and patient inclusion criteria,
- Achieve familiarity with anatomical and medical terms frequently used in trauma, and understand their relevance to injury data collection,
- Identify the basic principles for various scaling and scoring tools such as the ICD-10-CM, Trauma Score, Revised Trauma Score, Abbreviated Injury Scale, Injury Severity Score, TRISS, etc.,
- Understand the assignment of injury severity values using the tools listed above, and their importance,
- Identify the process of reviewing and abstracting medical records of seriously injured trauma victims,
- State the assignment of e-codes and their significance.

Who should attend?

All clinical and research staff interested in trauma outcome research, quality improvement and injury surveillance.

Workshop Facilitator

Dr Amber Mehmood

Registration Fee

Rs 2,000/-
