**The Health Care Quality Challenge: Making  
Quality Matter Now and in Future**  
An Inter-Professional Conference Charting the Way Forward

**Date:** November 10-12, 2016

**Venue:** Safari Park Hotel, Nairobi, Kenya

**PROGRAMME**

## Welcome Message

Dear fellow participants and presenters,

Welcome to the conference on ‘The Health Care Quality Challenge Making Quality Matter Now and in Future’ in East Africa. The conference is organized by the Aga Khan University (AKU) and the Johnson & Johnson Corporate Citizenship Trust (Trust) to raise the understanding of quality improvement systems and to impact health care outcomes with a focus on quality in service provision across the continuum, in research, in education and training. We believe that the implementation of these quality systems and linking the understanding of their impact to an agenda for the next 15 years will contribute to the achievement of the Sustainable Development Goals and ultimately to the wellbeing of the East African populations.

With the 2016 Conference we are also celebrating the AKU’s 15th anniversary in East Africa and the 15th anniversary of the unique partnership between the AKDN and the Trust. The partnership was initiated in 2001 with the launch of the AKU Nursing Education Programmes and expanded into numerous innovative AKDN-Trust collaborations across many countries. During this conference, the University and the Trust will also release the “Healthy Futures” impact evaluation report of the 15 year partnership between AKU and the Trust in nursing and midwifery education.

The Conference provides an important opportunity to discuss regional priorities in health system development as well as recent advances of the Integrated Health System of the AKDN. As part of the East Africa health systems, the AKDN aims at providing a high standard of service quality at primary, secondary and tertiary level care for the people across East Africa and creates a platform for sharing new models of public private partnerships in quality of care. Leading regional and international speakers are sharing their latest research findings, experiences, and innovations in quality improvement in health care with health care providers, fellow researchers and policy makers. We expect that this Conference will be the first of a series of annual conferences on Health System Strengthening in East Africa in the years to come.

Sincerely

**Firoz Rasul**  
President  
Aga Khan University

**Frank Welvaert**  
Managing Director  
Johnson & Johnson Corporate Citizenship Trust

## Welcome Message

**Dear fellow participants, presenters, facilitators and colleagues,**

Let me warmly welcome you to the Conference on 'The Health Care Quality Challenge Making Quality Matter Now and in Future' in East Africa. I am pleased that you followed our invitation and came to spend the next two and half days together thinking and discussing about how we can best meet the quality challenges of achieving better health for all in East Africa in the next 15 years. As a programme committee, we aimed at providing the right mix of plenary sessions and focused workshops that will challenge you and stimulate innovative ideas and collaborations across disciplines and across public, private and industry partners. To be successful we look to you to be engaged: challenging each of us to think differently, 'out-of-the-box' and collaboratively.

The Programme foresees a series of presentations by leading regional and international speakers who will share their latest research findings, experiences, and innovations in quality improvement in health care with health care providers, fellow researchers and policy makers.

The programme also shows that we will bring forward ideas from the 12 workshops to a plenary wrap-up session that will capture key directions for focus and for building partnerships that can truly have impact over the next 15 years. We will conclude the meeting with Jane Griffiths from Johnson & Johnson Corporate Citizenship Trust who will give the closing keynote speech on "leadership and partnership", a powerful strategy for individual, institutional and national success.

I want to thank you for your active participation in this meeting. I especially want to thank the speakers and workshop leaders for agreeing to contribute their expertise to the conference. Meetings such as this are complex to organise and I want to take this opportunity to introduce to you the programme committee, and the logistics and communication teams. My sincere thanks go to the colleagues who worked tirelessly during many weeks to make this conference a reality. I especially thank the Johnson & Johnson Corporate Citizenship Trust for their co-sponsorship of the conference and for the excellent and continuous contributions to the content and planning of the conference.

I look forward to meeting you at the conference and welcome your feedback on what has worked and how we might improve the next time - in Kampala.

**Sincerely**

Michaela Mantel, MD, MPH  
Programme Chair

## Conference Committee

### Conference Programme Committee

Dr Michaela Mantel, Chair, Aga Khan University Faculty of Health Sciences  
Prof Robert Armstrong, Aga Khan University Medical College  
Prof Sharon Brownie, Aga Khan University School of Nursing and Midwifery  
Prof Marleen Temmerman, Aga Khan University Medical College  
Dr Mushtaq Ahmed, Aga Khan University Medical College Dar es Salaam  
Dr Riaz Ratansi, Aga Khan University Medical College Dar es Salaam  
Dr Majid Twahir, Aga Khan University Hospital, Nairobi  
Ms Asifa Nurani, Aga Khan Foundation  
Ms Mariana Xavier, Johnson & Johnson Corporate Citizenship Trust  
Ms Sally Robinson, Johnson & Johnson Corporate Citizenship Trust  
Mr Syed Sohail, Aga Khan Health Services, Kisumu  
Eunice Mungai, Aga Khan University Hospital, Nairobi  
Ms Jemimah Kimeu, Aga Khan University Hospital, Nairobi  
Ms Eunice Ndirangu, Aga Khan University School of Nursing and Midwifery  
Dr Gerald Yonga, Aga Khan University Medical College  
Dr Zeenat Sulaiman, Aga Khan Health Services, East Africa

### Communication Team

Eunice Mwangi, Aga Khan University Hospital, Nairobi  
Victoria Nyamunga, Aga Khan University  
Duncan Kioko, Aga Khan University Hospital, Nairobi  
Gaylord Mwangi, Aga Khan University Hospital, Nairobi

### Conference Logistic Committee

Eunice Muthoni, Aga Khan University Medical College  
Karen Mworira, Aga Khan University Hospital, Nairobi  
Mariana Xavier, Johnson & Johnson Corporate Citizenship Trust  
Edith Gitau, Eventus  
Naomi Kirui, Eventus
