EM TODAY

Emergency Medicine Residency Program Bulletin

Issue No. 1

Revamping of the residency committee

The emergency medicine residency program with an aim of providing the best academic and learning experience and to instill new ideas, decided to restructure our current residency committee. The process was initiated a few months back in which we invited applications, that included a letter of intent and an updated CV.

We are thrilled to announce that from June 2022 we will be having a restructured residency committee which will include Dr Badar, Dr Irum, Dr Bushra and Dr Ahad. We are very excited to work with our newly selected DRC members and looking forward for some new ideas. The residency program is currently led by the program director (Shahan Waheed) and associate program director (Noman Ali)

Departmental Residency Committee Members

DRC Members: Our newly appointed residency committee members.

Senior Residency Advisor

He needs no introduction....

Senior Advisor Emergency Medicine Residency Program

The residency program will seek guidance and support in important academic matters from Dr Nadeemullah Khan, as senior advisor of emergency medicine residency program. Dr Nadeem is known for providing new ideas and giving insights on strengthening the current academic standards of our residency program.

Launch of Emergency Medicine Residency Program Flag.

On May 27, 2022, at Lahore Gymkhana the residency program showcased their residency flag Spartan (Serving Patients At Risk Through Agile Novelities).

Chief Residents Committee

Breaking the glass ceiling

The chief residents committee has been working tirelessly in uplifting the academic culture within the department. For more details stay tuned to our annual newsletter.

After Hours

Let's collaborate to develop
and learn

The residency program has been effectively conducting many educational activities outside AKU and many more initiatives are expected to be launched later this year.

Acute and Critical Care Medicine Clinics

An year-long seminar series

Dr Kamran Pasha together with his colleagues in acute medicine is bringing his wealth of knowledge in acute medicine and will be beginning a comprehensive program from July 2022.
