# AKU's Global Mobility Programme

Inbound Intern Portfolio

Learn more about the impact these interns are making
at their respective placements across the Aga Khan
Development Network.
Their names, academic institutions and backgrounds,
and their respective projects are all highlighted below.

Abir Arefin
Western University

Public Health

AKU SONAM - To provide assistance with new research proposals and grants, and facilitation of on- going research activities

Amirah Nazir
University of Alberta

Human Physiology

AKU SONAM - To provide assistance with new research proposals and grants, and facilitation of ongoing research activities

Betty Wang
Western University

Business Administration and English Literature

AKUH Nairobi - Comparative analysis of COVID practices at AKUH and at a Canadian hospital

Ali Jamal
University of British Columbia

Biomedical Engineering

AKUH Biomedical & Electronics Engineering - Medical device managementand operations at AKUH

Ameera Kanjee
Western University

Health Sciences

Community Health Sciences - Assistance in research proposals, manuscripts and conference presentations

Amsel Saleem
Brown University

International & Public Affairs

Bilateral and Multilateral Relations Office - Grant proposal writing, donor relations mapping, assist in project design

Ashna Hudani
University of Toronto

International Development

Community Health Sciences - Research, data collection, analysis, proposal writing, literature reviews, and academic and report writing

Christina Nguyen
University of Waterloo

Kinesiology

Paediatrics & Child Health Department - Proposal writing, literature reviews, and academic and report writing

Dana Bacca
Simon Fraser University

Business

Resource Development and Alumni Affairs - Supporting a data strengthening project on existing alumni data

Eliza Hicks
Brown University

Sociology & Urban Studies

Institute for Educational Development (IED) - Content development, writing, designing and editing the contextualized education materials

Jennifer Wen
Simon Fraser University

Business

Resource Development and Alumni Affairs - Content development for social media, writing alumni stories, creating video recordings, repurposing content

Lina María Zuluaga
University of Toronto

Social Sciences

Resource Development and Alumni Affairs - Research and assist with fundraising and university advancement projects

Jiani Chen
University of Alberta

Finance

Resource Development and Alumni Affairs - Research and assist with fundraising and university advancement projects

Madison Moore
University of Washington

Food Systems & Nutrition

President's Office - Researching and developing the Aga Khan University's first environmental agenda.

Janette Lee
Simon Fraser University

Communications

Graduate School of Media & Communications - Work to conceptualize, research and report on AKUH-N COVID-19 strategy response plan

Kristen Irvine
Simon Fraser University

Communications

Innovation Centre - Working on research projects and assist the team with their overall research objectives and study design.

Malika Daya
University of Toronto

International Development and Anthropology

Network of Quality Assurance and Improvement - Content writing, communications projects, social media presence

Nabila Basri
University of British Columbia

Anthropology & Public Health

University Partnerships Office- Communications, project development, research and report writing to further partnerships

Obianuju Nwadike
University of Toronto

Environmental Science &
International Development

East Africa Institute - Research
study on household air pollution
in LMICs

Sarah Suzuk
University of Alberta

Biology & Dietetics

Department of Population Health,
Medical College - Assist in building
a conceptual population health
framework for understanding the
health care system

Vanesa Mora
Brown University

Development Studies &
Anthropology

Institute for Educational
Development - Documentation,
strategic information and results
packaging of programmes to
improve quality of education.

Nareesa Karmali
Western University

Interdisciplinary Medical Sciences

Community Health Science -
Support the implementation and
enhancement of various projects,
including organizational
development, and service planning
initiatives

Tanaz Devani
Western University

Health Sciences

Centre of Excellence in Women and
Child Health - Communications and
research projects on women and
child health

Vincent Doan
University of Washington

Public Health

Community Health Sciences -
Assistance in research proposals,
manuscripts and conference
presentations

Noah Pirani
Brown University

Economics and International and
Public Affairs

Resource Development and
Alumni Affairs - Research and
assist with fundraising and
university advancement projects

Tianna Sequeira
Simon Fraser University

International Studies

Graduate School of Media &
Communications - Organization,
advertising, registration and
scheduling of the AKU Harvard
Kennedy Leadership Programme

Yasmina Gaber
Western University

Global Health

AKUH Nairobi – Build a projection
model of coronavirus cases for
the context of Kenya

Saqifa Walli
Cornell University

Environmental Sustainability SciencesProject & Design Office – Participating in research and design of AKU architecture plans

MingSum Michelle Cheng
University of Calgary

Communication and Media Studies

Office of Student Experience – Assisting in formalization of communications structure and special projects

Ali Salahuddin
University of Washington

Geography & Information Management

Institutional Data, Analytics & Reporting - Data analytics reports with visualizations on areas related to university stakeholders

Kanishka Sikri
University of Toronto

International & Critical Development Studies

Health Department, AKF Mozambique - Support the SPARC team to finalize the programme strategy and development of the materials.

Karla Trofin
University of Washington

Psychology

Office of the Events and the Ceremonies - Research, portal development, training documentation, event standards, virtual event coordination

Parisa Kabir
University of British Columbia

Global Health and Nutrition

Institute of Educational Development - Designing and implementing a support programme for graduate students

Dani Beckman
University of Washington

Communications & Sales

Department of Strategic Communications - Content creation, online event support, media monitoring, etc.

Divya Dey
University of Toronto

International Development Studies

Office of Student Experience - Supporting in the formalization of policies, procedures, and strategic planning for the office

Fitia Ranaivo-Harisoa
University of British Columbia

International Relations

Institute of Educational Development – Designing and implementing a support programme for graduate students

Chloe Chih Yu Chen
University of Washington

Adult-Gerontology Primary Care Nursing

SONAM - Development of MSC-Advanced Practical Nursing content as per existing approved curriculum.

Leonor Leitão
Universidade NOVA de Lisboa

Statistics and Information Management

University Partnerships Office - Data analytics reports with visualizations on areas related to internship programme activities and monitoring and evaluation

Nivya Narayana Murthi
University of Washington

Public Administration

Network of Quality Teaching and Learning - Communications and research on remote teaching and learning

Angela Yang
University of Toronto

Environmental Science

University Partnerships Office- Reviewing and re-developing a cohesive and internal strategy for partnerships

Arushi Dutt
University of East Anglia

International Development Practice

University Partnerships Office - Communications strategy design, exploring opportunities for the IIP in other AKDN locations, grant opportunities for the programme

Laila Salim Surani
University of East London

Adult Development and Aging

Community Health Sciences - Research, data collection, analysis, proposal writing, literature reviews, and academic and report writing

Kenny Go
University of British Columbia

Interdisciplinary Sciences

University Partnerships Office - Data analytics reports with visualizations on areas related to partnership activities and monitoring and evaluation

Cecelia Mweka
Colorado College

Physics/Material Science

East Africa Institute - Research study on household air pollution in LMICs

Alisha Madatali
Catholic University of Portugal

Business Management

French Medical Institute for Children (FMIC) - Collect data, evaluate and prepare multiple reports on FMIC's healthcare systems

Huma Ramazan Ali
Brown University

Middle East and South
South Asian Studies

French Medical Institute for
Children (FMIC) - Donor research
and intelligence gathering of
funding trends

Inaara Karsan
Western University

Medical Science and Biology

French Medical Institute for
Children (FMIC) - Collecting data,
evaluate and prepare multiple
reports on FMIC's healthcare
systems.

Cristian Garcia
McMaster University

Health Research Methodology

The Aga Khan Foundation (AKF)
Canada - Analyse and visualise
programme indicator data for
evidence-driven decision-making

Kaila Belovich
University of Alberta

Earth Sciences and Human
Geography

President's Office - Researching
and developing the Aga Khan
University's first environmental
agenda

Irfan Tanveer

University of Victoria

Economics

Resource Development and
Alumni Affairs - Research and
assistance on various planned
fundraising initiatives

Mina Mahmood
University of Alberta

Psychology & Biological Sciences

Office of Student Experience -
Development of online, blended,
and in-person modules focused
on students' biopsychosocial
wellbeing and leadership skills

Areeba Qureshi
University of Toronto

Biochemistry & Neuroscience

Department of Pathology: Medical
College - Research, literature
review, drafting and editing of
research proposals

Khanh Hien Ha
University of Alberta

Biochemistry

Department of Pathology: Medical
College - Research, literature
review, drafting and editing of
research proposals

Linzhi Wu
University of Victoria

Biochemistry

Department of Pathology: Medical
College - Research, literature
review, drafting and editing of
research proposals

Mastoora Rizai
University of Calgary

Anthropology & Health Administration

The Aga Khan Foundation (AKF) Portugal - Creating an intern/volunteer policy to support the foundation's projects

Sauleha Farooq
University of Alberta

Biological Sciences

Resource Development and Alumni Affairs - Research and assistance on various planned fundraising initiatives

Katie Du
University of Alberta

Cell Biology and Biomedical Research

Department of Medicine - Research on mental health outcomes in health care providers taking care of COVID patients

Mira Hennawy
University of Toronto

International Development Studies

The Aga Khan Foundation (AKF) Syria - Develop program briefs for key AKDN humanitarian programmes in Syria

Sohaila Hassan
University of Toronto

International Development Studies and Public Policy

Institute for the Study of Muslim Civilisations - Collecting primary data as part of a project mapping the Pakistani political landscape

Inês Amaro
Universidade NOVA de Lisboa

Anthropology

University Partnerships Office - Reviewing and re-developing a cohesive and internal strategy for partnerships

Shenin Mehnaj
University of Alberta

Nutrition & Food Science

Office of the Events and the Ceremonies - Research, portal development, training documentation, event standards, virtual event coordination

Sophia Larsen-Rosner
University of Calgary

International Relations

Innovation Centre - Working on research projects and assist the team with their overall research objectives and study design

Shalom Naizgi
University of Alberta

Political Science and Philosophy

University Partnerships Office - Assisting with the project management cycle of the internship programme and partnership-related activities

Aleena Virani
Queen's University

Health Sciences

AKU Department of Medicine – Contribute to work on disease presentation and treatment of NCDs in Kenyan tertiary care hospitals

Anisah Hooda
Western University

Global Health Systems

AKU CHS - Developing policy dialogue to translate research for the improvement of maternal, newborn, and child health

Aurhan Khan
Northeastern University

Business Administration

AKU Faculty of Arts & Sciences - Research in support of student experiential learning and community engagement

Alisha Chranya
American University

Business Administration

AKU GSMC - Producing academic content for synchronous and asynchronous teaching on online platforms

Arisha Ali
Emory University

Theological Studies

AKU Office of Events and Ceremonies - Research, portal development, training documentation, and virtual event coordination

Ayesha Asim
University of Waterloo

Environment and Business

Pamir Energy - Developing sustainable and responsive communication strategy plans in Tajikistan, Afghanistan, and Pakistan

Alyna Dharamsi
University of Toronto

Education & Psychology

AKU IED - Creating a digital guide incorporating the transition of online and remote teaching and learning in the Global South

Armaan Rajan
University of British Columbia

Neuroscience and Psychology

AKU SONAM - Conducting research on the development of electronic decision support systems in perinatal mental health

Elizabeth Mebrahtu
Western University

Management & Global Health Systems

AKU CHS - Implementing community-based programmes on maternal and child health, HIV/AIDS, environmental health, and chronic diseases

Eman Mubarak
University of Michigan

Medicine

AKU Division of Women and Child Health - Developing research, manuscripts, and data visualization around hereditary cardiomyopathy

Jenna Mulji
University of Alberta

Public Health

AKU SONAM - Supporting the adaptation of a contextually developed SM-ART module to SONAM's web browser and app in Pakistan

Noor Viresh Andharia
Osmania University

Psychology

AKU SONAM - Develop research on bereavement counselling for women who have experienced miscarriages or perinatal loss

Gazal Parekh
The University of Texas at Austin

Biochemistry & Business

AKU CHS - Aid with the creation and dissemination of guidelines on Environment and Occupational Health and its inclusion in Pakistan national health policies

Liam Kachkar
University of Alberta

Planning & Economics

AKAH Tajikistan - Work to support resilience enterprise development in Khorog's Urban Resilience project

Rameesha Rehmani
University of Toronto

Nursing

AKU SONAM - Research on psychological and spiritual interventions in coping strategies for individuals during the COVID-19 era

Ishan Koradia
University of Michigan

Electrical and Computer Engineering

AKF Canada - Analyze and visualize programme indicator data for evidence-driven decision making

Mahek Zindani
University of California, Berkeley

Global Studies and Economics

AKU UPO - Communications, project development, research, and report writing to further institutional partnerships

Reem Razzouk
University of Alberta

Community Engagement

AKU UPO - Communications, project development, research, and report writing to further institutional partnerships

Ria Fazulbhoy
Mumbai University

Biotechnology

AKU Division of Women and Child Health - Developing research around a rare diseases registry and biobank

Simran Jaffer
University of Ottawa

Health Sciences

AKU SONAM - Conducting research on the development of electronic decision support systems in perinatal mental health

Zeina Aizouky
University of Alberta

Digital Humanities

AKU GSMC - Work to conceptualize, research and report on short courses, webinars, and pandemic-focused activities

Samina Merchant
University of Houston

Instructional Design & Technology

AKU GSMC - Production of academic content for synchronous and asynchronous teaching by creating courses for online learning platforms

Yelda Safi
University of Waterloo

English Literature & Rhetoric

Pamir Energy - Developing communications material for regional energy projects across Tajikistan, Afghanistan, and Pakistan

Nurin Keshwani
The George Washington University

International Affairs and Development

AKU IED - Development of AKU strategy for digital learning and aid in the piloting of a course on online course design

Sarah Kabani
Huron at Western University

Global Development and Political Science

AKTC - Research and development of a digital newsletter to support AKTC's communications strategy

Zaha Fatima
NED University of Engineering and Technology

Biomedical Engineering

AKU Division of Women and Child Health - Developing research around a bioinformatics project related to rare diseases

Kameesh Karim
The University of Texas at Austin

International Relations and Global Studies

AKTC - Research and development of a digital newsletter to support AKTC's communications strategy

Afreen Janmohammed
University of Toronto

Health Sciences

AKU Department of Pathology: Medical College - Research, literature review, drafting and editing of research proposals

Ateefa Juma
University of Calgary

Communications

Aga Khan Academies - Mapping out a communications strategy for the Academy

**Azra Lakhani**
Western University

Public Health

AKU Community Health Services (CHS) - Identification of health issues of global importance that are most prevalent in low- and middle-income countries, particularly in Pakistan.

Alia Bhanji
University of London

Gender Studies and African Politics

AKU Department of Critical Creative Innovative Thinking (CCIT) - Developing a more robust communications and marketing strategy for the department

Ayesha Ali
Jefferson University Hospital

Medicine

AKU School of Nursing and Midwifery (SONAM) - Develop research on bereavement counseling for women who have experienced miscarriages or perinatal loss

Alisha Bhimani
Dartmouth University

Health and Data Science

Aga Khan Education Service (AKES) - Creating a comprehensive data visualization technique for the quarterly performance organizational reports.

Daman Dhunna
Simon Fraser University

Biomedical Physiology

AKU School of Nursing and Midwifery (SONAM) - Develop research on bereavement counseling for women who have experienced miscarriages or perinatal loss

Azim Ahmed
University of British Columbia

Physiology and Kinesiology

AKU Department of Pediatrics & Child Health - Proposal writing, literature reviews, and academic and report writing

Caitlin Goodman
Western University

Health Science

AKUH, N Executive Office - Conducting an analysis of data on mental-health issues experienced during the COVID-19 pandemic.

Eleonora Tucci
Politecnico di Milano

Design for Development

Aga Khan Agency for Habitat (AKAH) - Assessing concepts against international best practices, and benchmarks for Urban Resilience projects

Erika Falcon
University of Calgary

International Relations and Global Development Studies

AKU University Partnership Office (UPO) - Communications, project development, research, and report writing to further partnerships

Harsimronjoot Sidhu
University of Calgary

Cell Biology

AKU Department of Family Medicine - Developing, monitoring, and evaluating frameworks to measure the impact of the rural training program in Gilgit-Baltistan.

Eric Lillow
University of Alberta

Urban Planning

AKU Design Office - Participating in research and design of AKU architecture plans

Hijaan Mitha
Vanderbilt University

Medicine, Health & Society

AKU Parenting Education Program, Department of Obstetrics and Gynaecology - Planning and administering midline implementation evaluation of ECD PREP

Kabir Nadkarni
Columbia University

Public Administration

Aga Khan Education Service (AKES) - Researching best practices and establishing the foundational elements of the agency's environmental goal-setting exercise in alignment with AKDN goals

Mahek Dodhyani
Tuffs University

Biomedical Sciences/Public Health

AKU Community Health Services (CHS) - Drafting research proposals on an oral health topics focused on the Pakistan context

Fatima Murji
Harvard Graduate School of Education

Education and Human Development

Aga Khan Education Service (AKES) - Research on best practices in areas of curriculum development and early childhood development.

Kainat Khan
Simon Fraser University

Political Science

AKU Graduate School of Media and Communications (GSMC) - Producing academic content for synchronous and asynchronous teaching on online platforms

Soheyl Ahmadzadeh
Simon Fraser University

Business Communication

AKU Institute of Global Health and Development (IGHD) - Developing a communications and marketing strategy for the Institute of Global Health and Development and the Centre of Excellence in Women and Child Health

Antanila Hawlader
Simon Fraser University

Political Science

AKU Office of the Events and the Ceremonies - Research, portal development, training documentation, event standards, virtual event coordination

Zeedai Li
Simon Fraser University

Computer Science

AKU University Partnership Office (UPO) - Communications, project development, research, and report writing to further partnerships

Mursal Mohammadi
Indraprastha College for Women University of Delhi

Media Studies

AKU University Partnership Office (UPO) - Communications, project development, research, and report writing to further partnerships

Lina Miglioranza
University of Liverpool

Sociology and Social Policy

Aga Khan Agency for Habitat (AKAH) - Build relationships with external media and identify opportunities for AKAH experts and global and regional outreach

Aïcha Yasmine Touré
University of Toronto
International Development Studies Specialist Co-op with a major in Public Policy

AKU University Partnership Office (UPO) - Communications, project development, research, and report writing to further partnerships

Azim Dinani
National Institute of Technology Trichy

Chemical Engineering

AKU University Partnership Office (UPO) - Communications, project development, research, and report writing to further partnerships

Deena Siddiqui
University of Toronto

Public Health and International Development

AKU School of Nursing and Midwifery (SONAM) - Develop research on bereavement counseling for women who have experienced miscarriages or perinatal loss

Evan McFee
Simon Fraser University

Sustainable Energy Engineering

Aga Khan Agency for Habitat (AKAH) - Assessing concepts against international best practices, and benchmarks for Urban Resilience projects

Falah Khaliqdina
University of Alberta

Biological Sciences

AKU Department of Pathology, Medical College - Research, literature review, drafting and editing of research proposals

Nathan Donald
University of Calgary

Political Science & Geography

Aga Khan Academies - Developing a framework on climate change and environmental education, against the existing curriculum and standards for students in primary and secondary schools

Nayeon Park
Simon Fraser University

Health Sciences

AKU Community Health Services (CHS) - Aid with the creation and dissemination of guidelines and dissemination of guidelines on Environment and Occupational Health and its inclusion in Pakistan national health policies.

Jadjit Sidhu
Simon Fraser University

International Development

Resource Development and Alumni Affairs - Research and assistance on various planned fundraising initiatives

Noor Fareha
Asian University for Women Chittagong, Bangladesh

Public Health

AKU Community Health Services (CHS) - Aid with the creation and dissemination of guidelines and dissemination of guidelines on Environment and Occupational Health and its inclusion in Pakistan national health policies.

Tanaz Devani
Western University

Health Sciences

Centre of Excellence in Women and Child Health - Communications and research projects on women and child health

Nareesa Karmali
Western University
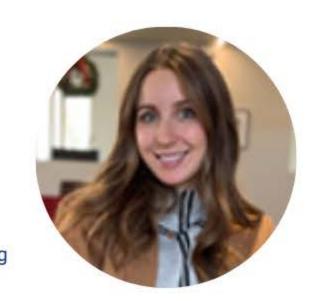

Interdisciplinary Medical Sciences

Community Health Science - Support the implementation and enhancement of various projects, including organizational development, and service planning initiatives

Dwarkesh Amin
Western University

Health Sciences

Resource Development and Alumni Affairs - Content development for social media, writing alumni stories, creating video recordings, repurposing content

Ashley Clarke
Western University

Health Science

AKUH, N Executive Office - Conducting an analysis of data on mental-health issues experienced during the COVID-19 pandemic.

Danial Bashir
University College London

Education, Gender & International Development

AKU QTL_Net - Developing communications and marketing plans to engage faculty, educators in QTL_net activities including hosting the 4th biennial SoTL conference.

Saila Batool
Monash University

Health Science

AKU Community Health Services (CHS) - Identification of health issues of global importance that are most prevalent in low- and middle-income countries, particularly in Pakistan.

Alina Ziyun Zeng
University of British Columbia (UBC)

Urban Forestry and Landscape Planning

Aga Khan University, Environment and Sustainability Office - Develop, conceptualize and designing various stakeholder engagement initiatives and campaigns on environment sustainability across all AKU Campuses

Faiz Alam
Emory University

Doctor of Medicine (MD)

AKU Community Health Sciences - Community Health Sciences - Research, data collection, analysis, proposal writing, literature reviews, and academic and report writing

Sepideh Fatemi
University of Alberta

Social Sciences

The Aga Khan Foundation (AKF) Portugal - Setting up a childminder cooperative for children aged 0 to 3 years old in Sintra

Maria Farooq
Western University

Nursing

AKU School of Nursing and Midwifery (SONAM) - Develop research on bereavement counseling for women who have experienced miscarriages or perinatal loss

Shirin Malik
Texas A & M University

Project Management

AKU Environment and Sustainability, Office of the President - Develop, conceptualize and design various stakeholder engagement initiatives and campaigns on environment sustainability.

Nilofer Bharwani
Kennesaw State University

International Conflict Management

Aga Khan Agency for Habitat (AKAH), Tajikistan - Assessing concepts against international best practices, and benchmarks for Urban Resilience projects

Stompie Ade
Daystar University

Biomedical Sciences

AKU Department of Pathology, Medical College - Research, literature review, drafting and editing of research proposals

Dewan Meghwar
Sukkr IBA University

Psychology

Aga Khan University, Marketing and Communications Department - Using big data to develop models to understand patient loyalty across different hospital services in Pakistan

Sophia Kara
University of Western Ontario

Kinesiology and Nutritional Science

Aga Khan University, Family Medicine Department
- Developing, monitoring, and evaluating frameworks to measure the impact of the rural training program in Gilgit-Baltistan.

Sarah Asif
Northwestern University

Neurobiology

Aga Khan University, Brain and Mind Institute - Building new relationships with target stakeholders, particularly with universities globally having similar research and community-based programs as the Brain and Mind Institute

Kiran Fatima
Institute of Professional Psychology

Psychology

Aga Khan University, Brain and Mind Institute - Building new relationships with target stakeholders, particularly with universities globally having similar research and community-based programs as the Brain and Mind Institute.

Mirabel Belay
University of Calgary

Natural Science

Aga Khan University, Paediatrics and Child Health Department - Proposal writing, literature reviews, and academic and report writing on paediatric research content

inaara Savani
University of Western Ontario

International Relations

Aga Khan Foundation, Dar-es-Salaam, Developing training curricula on key agricultural innovations in East Africa

Sara Kothia
University of Texas at Austin

Nursing

Aga Khan University, School of Nursing and Midwifery Department - Supporting the adaptation of a contextually developed SM-ART module to SONAM's web browser and app in Pakistan

Undela Uneeb
Institute of Professional Psychology

Psychology

Aga Khan University, Brain and Mind Institute - Building new relationships with target stakeholders, particularly with universities globally having similar research and community-based programs as the Brain and Mind Institute.

Sahira Dharamshi
University of Edinburgh

Sociology

Aga Khan Education Service (AKES) - Researching on best practices in areas of curriculum development and early childhood development.

Zeyanna Dhalla
The College of William and Mary

Health Sciences

Aga Khan University, Emergency Medicine Department - Contributing to various projects, including service planning initiatives and referencing applications that allow the incumbent to function effectively within the research team.

Abir Arefin
Western University

Public Health

Aga Khan University, Emergency Medicine Department - Contributing to various projects, including service planning initiatives and referencing applications that allow the incumbent to function effectively within the research team.

Ayshe Seyfulayeva

Universidade NOVA de Lisboa

Public Health

AKU CHS - Implementing community-based programmes on maternal and child health, HIV/AIDS, environmental health, and chronic diseases.

Khalisa Jiwa Mawji
University British Columbia

International Relations

Aga Khan University, Graduate School of Media and Communications - Contributing towards the development of e-learning content through multimedia content development, based on proven instructional design principles.

Ariana Rahim
University of Western Ontario

Medical Sciences

Aga Khan University, Counselling and Psychology Department - Conducting an analysis of data on mental-health issues experienced during the COVID-19 pandemic.

Umme Habiba
Mount Holyoke College

Neuroscinece and Behaviour

Aga Khan University, Brain and Mind Institute - Building new relationships with target stakeholders, particularly with universities globally having similar research and community-based programs as the Brain and Mind Institute.

Mohammed Almaradweh
University of Western Ontario

Medical Sciences

Aga Khan University, Counselling and Psychology Department - Conducting an analysis of data on mental-health issues experienced during the COVID-19 pandemic.

Rumassah Chohan
University of California, Berkeley

Social Science

Aga Khan University, Paediatrics and Child Health Department - Develop an integrated technology platform for midwives, doctors, and community health workers to streamline and coordinate patient care and data collection in Karachi.

Leena Ramji
University of Alberta

Commerce and Human Resource Management

Aga Khan University, Department of Strategic Communications - Content creation, online event support, media monitoring, etc.

Ceemal Fareed
Dow University of Health Sciences

Biomedical Sciences

AKU Biomedical - Identification of health issues of global importance that are most prevalent in low- and middle-income countries, particularly in Pakistan.

Yousaf Malik
Habib University

Social Development and Policy

Aga Khan University Institute of Global Health and Development - Focused research regarding pertinent public health topics such as Sustainable Development Goals.

Jaweria Maqbool
University of Lahore

Allied Health Sciences

AKU School of Nursing and Midwifery - Develop research on bereavement counseling for women who have experienced miscarriages or perinatal loss

Asra Qureshi
LUMS

Economics

AKUH CEO's Office - Supporting the CEOs office in driving projects outlined to grow the health services business such as corporate business and strategic partnership with community-based physicians

Neha Novlani Ramchand
LUMS

Sociology and Anthropology

AKU Institute of Global Health and Development - Focused research regarding pertinent public health topics such as Sustainable Development Goals, Climate change, Women empowerment, education, agriculture and nutrition, and women and child health

Fatima Shahid
Foundation University, Islamabad

Social Sciences

AKU School of Nursing and Midwifery - Develop research on bereavement counselling for women who have experienced miscarriages or perinatal loss

Mahek Solanki
Maharaja Sayajirao University of Baroday, India

Psychology

AKU Paediatrics and Child Health Department - Develop an integrated technology platform for midwives, doctors, and community health workers to streamline and coordinate patient care and data collection in Karachi

Shameen Khan
Bahria University- Institute of Professional Psychology

Social Sciences

AKU School of Nursing and Midwifery - Develop research on bereavement counselling for women who have experienced miscarriages or perinatal loss

Serena Moosabhoy
Western University

Medical Sciences

AKU Marketing and Communications Department - Using big data to develop models to understand patient loyalty across different hospital services in Pakistan

Kashif Basaria
University of Florida

Epidemiology

AKU Community Health Sciences -
Research, data collection, analysis,
proposal writing, literature reviews,
and academic and report writing

Zara Khanzada
IBA

Economics

AKU Institute of Global Health
and Development - Focused
research regarding pertinent
public health topics such as
Sustainable Development Goals

Bibi Amina Arbab
SZABIST

BioSciences

AKU Paediatrics and Child Health
Department - Develop an
integrated technology platform
for midwives, doctors, and
community health workers to
streamline and coordinate patient
care and data collection in
Karachi
