GUIDELINES

- Please attach the final Peer review report with this revised Improvement Plan template.
- Kindly follow the above original template provided by QARC.
- Spell out all acronyms and abbreviations and write in full.
- Ensure that the ACTION ITEMS have clear and measurable IMPACT on students learning and programme outcomes

FOR AN EXAMPLE PLEASE SEE ISMC IMPROVEMENT PLAN SUBMITTED TO THE QAA UK:

The template aims to be useful to guide the programme and academic entities to demonstrate the EVIDENCE & IMPACT of actions taken for program improvement based on the recommendations by external peer reviewers. The actions should be categories based on essential recommendations (short-term 1-2 year), advisable (medium-term 2-3 year), and desirable (long term 4-5 year). The external peer reviewers' recommendations are a frame of reference for continuous programme improvement in the template. At the same time, any significant area(s) of engagement/actions taken which are beyond external peer reviewers' recommendation and that has visible IMPACT on the students' learning and program improvement that QARC should make a note of it could be added to the template. However, please clearly mention particular action(s) and improvement(s) that are in addition to external reviewers' recommendations.
